This diagram illustrates the assembly of a mechanical component, likely a door hinge or latch mechanism, onto a metal frame. The parts are numbered 1 through 16. The assembly includes a main body (1) with a curved arm (2) and a latch (3). The body is mounted to a frame using screws (4) and washers (5). A spring (6) is attached to the body. The arm is connected to a latch (7) which is mounted to the frame using screws (8) and washers (9). A separate component (10) is shown with screws (11) and washers (12). A long rod (13) is shown with a handle (14) and a latch (15) which is mounted to the frame using screws (16) and washers (17).
